

Make a crown for Mom to wear on Mother's Day! There are four ways to make it.

1. You can color in each shape.
 2. You can write words that describe your mom on the crown or write them on a different paper, then cut and glue onto the crown.
 3. You can cut out the "Mom Descriptors" already listed that you think describe your mom the best, then paste them on the crown.
 4. Print two crowns. Color then cut each shape from the second crown and paste onto the first crown.
- ***Don't forget to cut out the rectangle on the other page. Staple one end of the rectangle to an end of the crown, then have your mom help you to measure the crown and staple the other end of the rectangle to the crown so she can wear it without it falling down.
